Little Fyodor –

The Very Best of Little Fyodor's Greatest Hits!

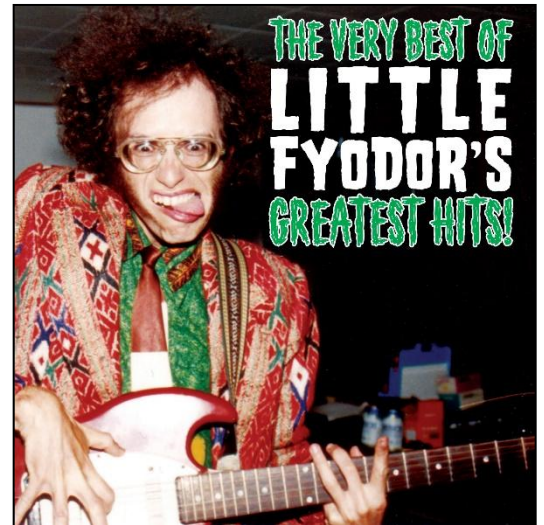

Little Fyodor has been spreading his unique brand of avant-pop madness throughout the world musical underground for more than 30 years, creating twisted, satirical songs which—beneath a crass and maniacal outer shell—express a deep empathy with those who most acutely experience the frustrations and alienation of modern life's “insect existence.” Fyodor's songwriting, sartorial aesthetics, and outlandish performances somehow manage to be simultaneously sad, angry, and hilarious; and thereby appeal to the silent majority of disillusioned weirdos of the world, whom he adeptly addresses with a theatrical, daresay Vaudevillian flair, that is a brand all his own.

In the many years that he's been pursuing his uncompromisingly eccentric artistic vision, Little Fyodor has released numerous cassettes, several vinyl LPs and singles, a VHS video, and a handful of CDs; the finest moments from all of which have been distilled down into this one, definitive release. This “best of” disc spans not only Little Fyodor's career, but also the full spectrum of instrumentational possibility, featuring tracks which utilize everything from the traditional “rock” ensemble, to saxophones, synthesizers, samplers, drum machines, toy instruments, and beyond. All tracks on *The Very Best of Little Fyodor's Greatest Hits!* were digitally remastered by Bob Ferbrache. The CD packaging was designed by Kevin Slaughter and includes a multi-page fold-out insert featuring an interview with Little Fyodor and numerous photographs.

In support of this collection, Little Fyodor has been interviewed and performed live on various radio shows and podcasts such as KVCU, WTCB, *And This One's Introduced By...*, and *Outside Radio Hours*, as well as given interviews to websites and periodicals such as *The Aither*, *Westword*, *Colorado Music Buzz*, *Truly Rejected*, and others.
